T. RANGAMALLAIAH,
Secretary to Government,
Revenue Department.

EDUCATION SECRETARIAT

Dated 30th March 1951.

Subject:—Lawrence Schools at Lovedale (Nilgiris) and Sanawar (Simla Hills)—Scheme for award of scholarships.

No. E. 13329-Edn. 71-50-13. The Government of India have decided to introduce a scheme of scholarships to assist deserving pupils to take advantage of the public school facilities at the Lawrence Schools at Lovedale (Nilgiris) and Sanawar (Simla Hills), with effect from the academic year 1951. The schedule appended herewith furnishes the information regarding these scholarships.

By Order of His Highness the Maharaja of Mysore,
A. C. NIRVANI GOWDA,
Secretary to Government,
Education Department.

SCHEDULE.

LAWRENCE SCHOOLS AT LOVEDALE AND SANAWAR SCHOLARSHIPS SCHEME.

1. The Government of India have decided that—

(i) There shall be two types of scholarships, full and half, as follows:—

(*a*) Pupils whose parents or guardians have an income of Rs. 500 or below:—

Remission of full fees including cost of tuition, board and lodging; text books, stationery and games but excluding cost of clothing).

(*b*) Pupils whose parents or guardians have an income between Rs. 501 p.m. and Rs. 1,000 p.m.

Remission of half fees as defined above.

N B.—Parents or guardians will be required to submit a formal statement of income, supported by a certificate from the Revenue Authorities or an income tax certificate.

(ii) The number of scholarship holders shall be 20 per cent of the total number of pupils in each school: provided that in determining the total number of pupils, "entitled" children shall be excluded, and provided further that out of the total number of scholarships, the number of scholarships reserved for children of the armed forces personnel shall be 20 per cent of the number of seats actually filled by them (40 per cent seats have been reserved for them in each school), the expenditure on the award of these scholarships being debited to the defence estimates;

(iii) The criteria for the award of scholarships to the two categories of pupils shall be same, and

(iv) Award of scholarships shall be made by the Secretary, Ministry of Education, who is the Chairman of the Committee of Management, Lawrence School, Sanawar, and of the Board of Administration, Lawrence School, Lovedale, after considering the recommendations of the Principals on the results of the "merit" tests conducted by them.

2. The scholarship scheme is mainly intended for the Senior School. It has therefore been decided that the number of scholarships in the Preparatory School should be limited to 10 per cent of the total number of scholarships or one in each public school, whichever number is higher.

3. At present there are 196 non-entitled pupils at Sanawar and 104 at Lovedale. The total number of scholarships admissible would thus be 40 at Sanawar and 20 at Lovedale. Of those numbers four at Sanawar and two at Lovedale would be allotted to the proper school. The number of scholarships available in the Senior and Preparatory Schools will also have to be allocated to "Civil" and "Military" categories in proportion to the numbers, on the rolls in each category. (For 1951, the figures may also need revision in the light of actual admissions or an estimate prepared by the Principal).

4. The candidate who were already in the school in 1950 and wish to continue in 1951 will get a share of the scholarships. Out of the total number of scholarships available, six in each school may be awarded to candidates who come out first in the next annual examination in each class of the Senior School from Standard III to Senior Cambridge preparatory in each of the Civil and Military Groups. (Pupils of Standard II will be eligible to complete with Preparatory School pupils). These scholarships may be awarded to the children who satisfy the income qualifications prescribed, (namely, whose parents or guardians have an income of less than Rs. 1,000 a month) provided that the top boy or girl attains a good first class standard (approximate 65 per cent marks). One in each of the preparatory schools at Sanawar and Lovedale may also be awarded to the best pupil in the Preparatory School (three lower classes selected by the Principal from within the income group, on the basis of the annual examination).

5. This will leave roughly 33 scholarships at Sanawar and 13 at Lovedale. For selecting this number or such other modified number as may be necessitated by new admissions, it is proposed that the scholarships would be awarded at two distinct stages in the school, namely at the preparatory stage on admission and beginning of the lower stage in the Senior department, *i.e.*, about the age of 9 or 10. These scholarships will have to be continued until the pupils complete their courses in the Preparatory School and the Senior Department respectively, provided they make satisfactory progress which is to be certified by the principals and which should mean not less than first class standard. The progress of scholars will be reviewed by the

principal every year, but it will be open to him to recommend cancellation of a scholarship at any time for serious deterioration of the pupil or unsatisfactory behaviour and conduct. Such recommendations will be circulated to the members of the Board of Administration, Lovedale, or the Committee of Management, Sanawar, as the case may be before they are given effect to.

6. In 1951, out of the total number of scholarships available for fresh admissions only one-third may be allotted, so that for the next two years a few scholarships may be available while those awarded in 1951 continue in the higher classes. These will be awarded on the basis of merit tests to be conducted in the manner outlined in para 7 below.

7. As regards the basis on which these new scholarships should be awarded at these two stages, it is suggested that all fresh applications received in the two classes in question including those of candidates promoted from the Junior School, should be considered in two groups—one for the Preparatory School and the other for admission to the Senior Departments by a Committee for each school consisting of (1) the Principal (ii) the Director of Public Instruction, Madras, in the case of the Lovedale School and the Director of Public Instruction, Pepsu, in the case of Sanawar School or any other officer of the State Education Department, whom the Director of Public Instruction may consider suitable for the work; and (iii) as far as possible as Psychologist, either from a Training College or from the Ministry of Defence or elsewhere. Selection of scholars would be by means of a written test in Arithmetic, English and general knowledge. The paper in General Knowledge should be sufficiently comprehensive to test the knowledge of pupils about all things around them which boys and girls of that age are expected to know, the object being to test the intelligence and promise of the student and not merely his achievement. The result of the tests may be supplemented by an oral interview by the Committee. The competition will be limited to the age group 9—10 for admission to the Senior Departments. In the case of preparatory school children, there should be only an oral test by the Principal and interviews by the Committee. The interview may be in the presence of parents or guardians, though such presence need not be rigidly insisted upon as an established condition. This may give useful information about the home atmosphere which would have contributed to the make up of the child at the time of admission. In the case of Preparatory School Scholars, the test will be formal and the interview with the parent and the pupil should be given more weight. As pupils at this stage may not have sufficient knowledge of English, the Principal may give them a test in their own language, as far as possible. The recommendations of the Committees may then be submitted to the Secretary to the Government of India, Ministry of Education, who will give the final award taking into account the number of scholarships reserved for Military and Civil personnel and the total number of admissions in the school which will determine the total number of scholarships to be awarded in a particular year after taking into account the number of scholarships reserved for Military and Civil personnel and the total number of admissions in the school which will determine the total number of scholarships to be awarded in a particular year after taking into account the number of scholarships of the previous year which will continue to be in operation.

8. To save unnecessary expenditure, the test and interview may be held ten days before the school reopens, so that successful pupils and pupils who would join with or without a scholarship, may be admitted and left by the parents at the school before they leave Lovedale or Sanawar as the case may be. (Approval of the Secretary, Ministry of Education, should be obtained within the ten days period).

9. No quota need be allotted to different States in the available scholarships.

10. Children of the staff will also be eligible to compete for all the scholarships (Civil). If they quality for scholarships under the scheme, they will not be eligible for any other concessions available to them as children of the staff.

11. Pupils whose parents are in the scheme groups above Rs. 1,000 may also compete for the scholarships. If they qualify in the annual examination or the merit tests at admission time for a scholarship they will be called "Honorary Scholars" and no financial benefit will be given to them. All others awarded scholarships will be designated "Scholars".
